August 14, 2021

**Mission Statement:**

Our mission is to provide the community with readily available gaming peripherals and eSports related merchandise. Our goal is for this service to be user friendly and intuitive. For gamers by gamers.

Executive Summary:

GME will provide users with a user-friendly online store that is both aesthetically pleasing and easy to use. To meet our customer's requirements as well as satisfy the increasing demand of this growing market we will offer global shipping for a variety of eSports related merchandise as well as gaming marketed gear.

GME

Final Overall System Features	Category	Possible Points	Completed
Executive Summary (up to 1 page)	Core	2	✓
System Features (2 pages)	Core	2	✓
Walkthrough with screenshots (up to 10 pages)	Core	6	✓
Running on cloud server	Advanced	10	☐
Search for a product by name	Core	1	✓
Browse products by category	Core	1	✗
List products (by search/browse)	Core	1	✓
List products with image	Core	1	✓
Page header with menu	Basic	1	✓
Page header shows current logged in user	Basic	1	✓
Dynamic products on page based on sales	Basic	2	✗
Improved UI (user-friendly, images, etc.)	Basic	2	✓
Product recommendation based on user	Advanced	4	✗
Add to shopping cart	Core	1	✓
View shopping cart	Core	1	✓

GME

Update quantity (with data validation)	Basic	1	✗
Remove item from shopping cart	Basic	1	☐
Improved formatting/UI (e.g. in header bar)	Basic	1	✓
Cart stored in database between sessions	Basic	3	☐
Checkout with customer id	Core	1	✓
Checkout with payment/shipment info	Basic	2	☐
Checkout with data validation	Basic	2	✗
Multiple shipments per order supported	Advanced	2	✗
Calculate taxes/shipping (by items/state)	Advanced	2	✗
Product detail page and item description	Core	1	✓
Product detail has an image from database	Core	1	✓
Create user account page	Basic	2	✗
Create account with data validation	Basic	2	✗
Edit user account info (address, password)	Basic	2	✗
Login/logout	Core	1	✓
Register user/Forgot password email	Advanced	4	✗
Page listing all orders for user	Core	1	✓

GME

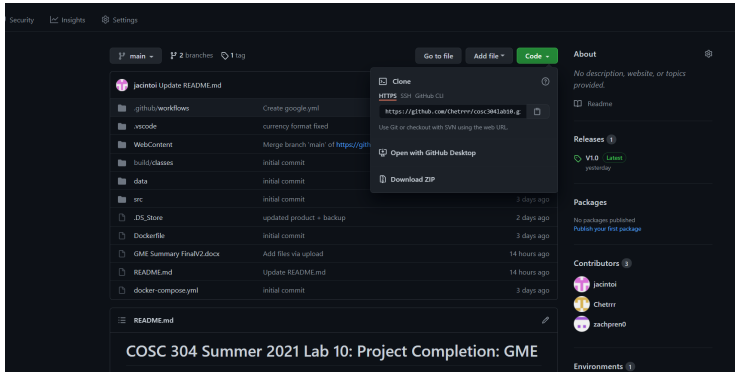

Ability to enter a review on a product	Basic	2	×
Display product review on product detail page	Basic	1	×
Restrict to one review per user on item purchased	Advanced	2	×
Display item inventory by store/warehouse	Basic	2	×
Edit item inventory by store/warehouse	Advanced	3	×
Administrator Portal (up to 19 total points)			
Secured by login	Core	1	✓
List all customers	Core	1	×
List report showing total sales/orders	Core	1	×
Report with a graph	Advanced	3	×
Add new product	Basic	2	×
Update/delete product	Basic	2	×
Change order status/ship order	Basic	1	×
Upload a photo to file system for product	Advanced	2	×
OR: Upload a photo to database for product	Advanced	4	×
Database restore with SQL script	Basic	2	✓

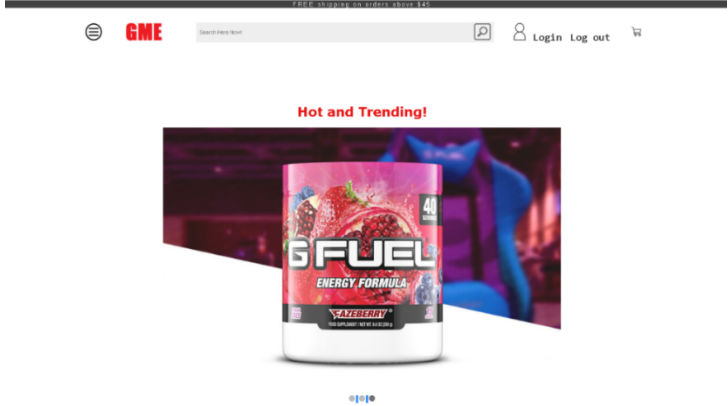

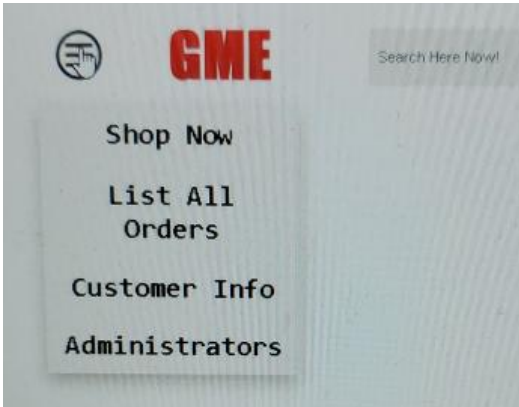

GME

Add/update warehouse, customer	Basic	2	×
Database System/General			
Implement some validation using triggers	Advanced	2	×
Use AJAX for some pages	Advanced	4	×
User interface and navigation/usability		Up to 5	✓
<i>Others (your suggestions)</i>		Up to 5	✓
Total: (out of 50 with maximum of 10 bonus marks. i.e. 60 points out of 50 is max.)			

WALKTHROUGH

Description		Screenshot
1.	<p>GitHub:</p> <p>https://github.com/Chetrrrr/cosc304lab10</p> <p>Our GitHub Page with an appropriate readme file.</p> <p>This page has all of the files and documents of the project.</p>	
2.	<p>Landing Page:</p> <p>This is the landing page of our project. The “Click Here” button will bring you to the index or home-page of the project.</p>	<p>Welcome to GME Online Store</p> <p>Click Here</p> <p>To the moon! Diamond hands!</p>

<p>3.</p>	<p>Main Home Page:</p> <p>In the top left corner of the homepage, there is a drop-down menu that directs the user to various other pages. The search bar allows the user to search through the products by name and if the search is empty it will return all of the products instead. In addition, there is a log-in button that will bring you to the login page. The slideshow will display one of our various products every six seconds. Lastly, there is a shopping cart that when clicked will bring you to the shopping cart page.</p>	
<p>4.</p>	<p>Drop Down Menu:</p> <p>This menu will direct the user to the different pages of the project.</p> <p><i>Shop Now:</i> Access the list of all the products</p> <p><i>List All Orders:</i> List of all the orders</p> <p><i>Customer:</i> Customer information</p> <p><i>Administrative:</i> Site transaction details</p>	

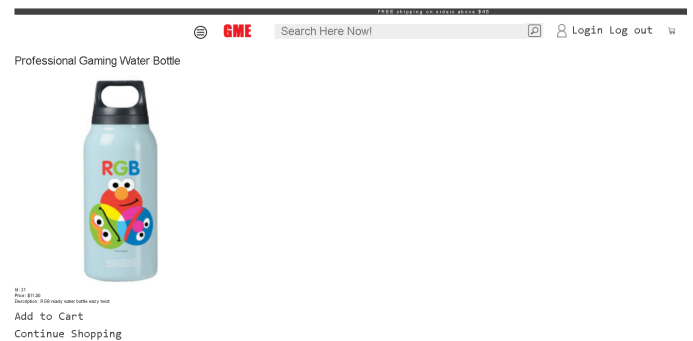

5. List of Products Page:

This page will display the list of all the available products. It will display the product name as well as the price of the product. It will also include an “add-to-cart” option that will add the product to the cart.

FREE shipping on orders above \$45		
	GME	<input type="text" value="Search Here Now!"/>

ADD TO CART	RGB Strips	\$39.00
ADD TO CART	Gamer's Choice Microphone for Streaming	\$62.50
ADD TO CART	2000 UltraFast Case	\$10.90

6. Product Page:

For each product, it will display an image of the product, the product name, the product id, the price of the item as well as the product description. Underneath the product description, it will suggest to the user to either add to the shopping cart or navigate them back to the homepage.

7. Shopping Cart Page:

Description:

This page will direct the user to the shopping cart page. It will list the items in the shopping cart and display the product id, quantity, name, price and the subtotal of the particular item. In addition, it will calculate the total amount of all the items in the shopping cart.

Features:

- There is a "Check Out" button that will bring the user to the checkout page. *It will then direct the user to the customer login page where it will ask the user for the proper credentials before continuing*
- The "Continue Shopping" button will direct the user back to the product page
- "Clear Cart" clears all the current items in the shopping cart

Your Shopping Cart

Product Id	Product Name	Quantity	Price	Subtotal
1	VTuber Keycaps	1	\$118.00	\$118.00
4	Instant Noodles	1	\$2.00	\$2.00
Order Total				\$120.00

Daily Sales Report

Date	Order Amount
2019-10-15	\$509.10
2019-10-16	\$106.75
2019-10-17	\$327.85

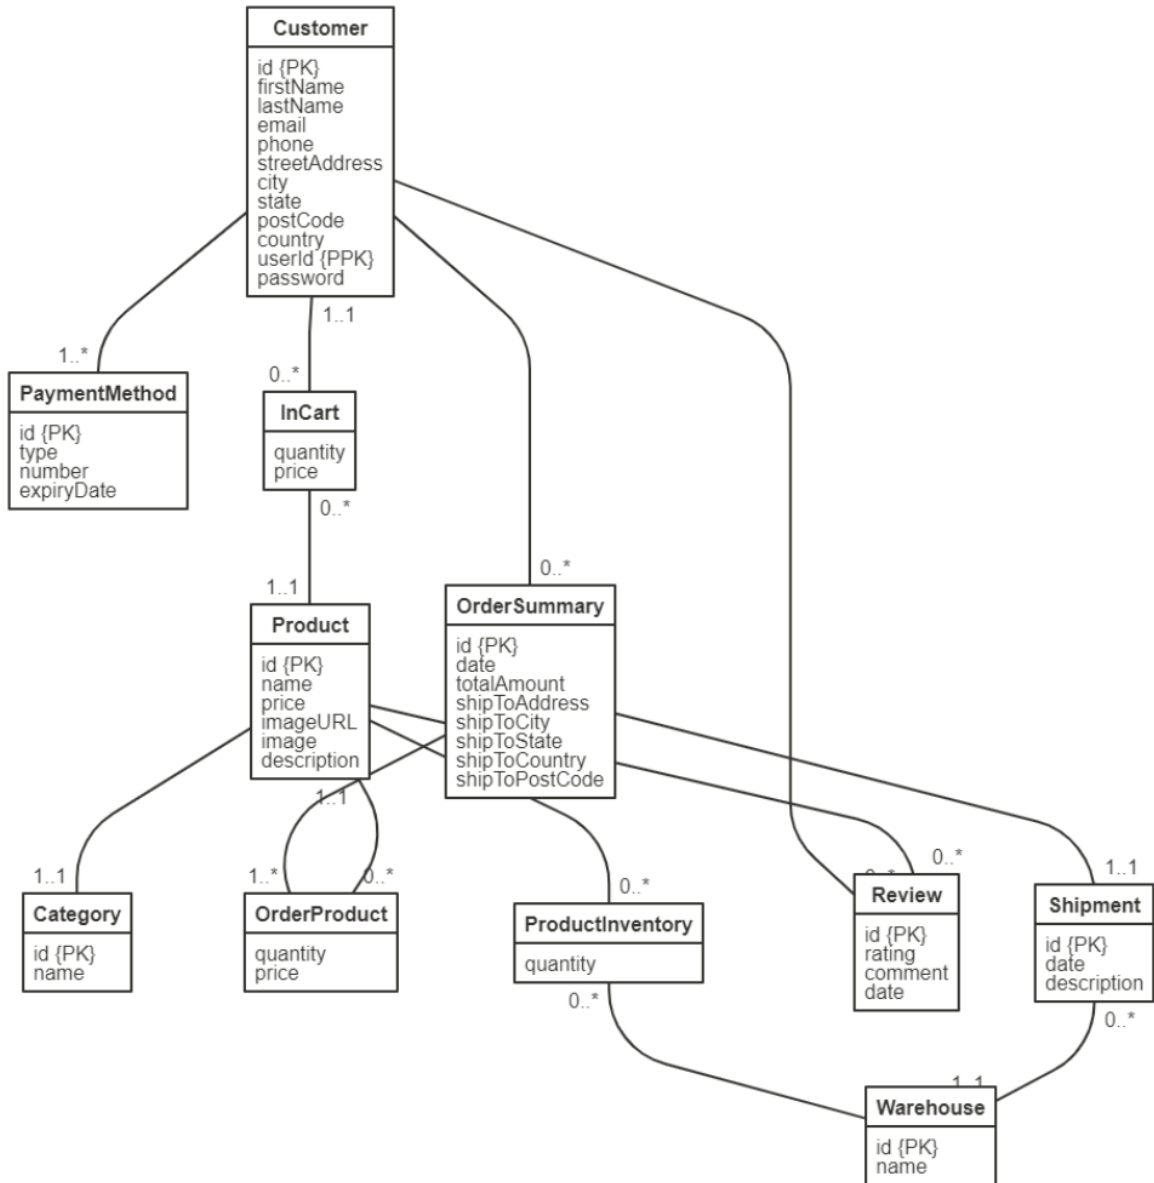

Cloud Hosting

15. The project is currently being hosted using Google Cloud Platform where the build is automatically updated using the GitHub main branch repository. The site URL is currently <https://s082021-mfrsvg2qsg-uc.a.run.app> and can be modified with a custom URL in the future. Further coding on the DockerImage is required for the site to function as expected and planned. Shown here are the various site statistics as well as confirmation that the build and upload were successful.

GME

ER/UML Diagram

Pending Implementations/Features

- ☐ Search and browse by category, categories are in place but not coded in yet.
- ☐ Hyperlinks for slideshow on the main page to their respective products.
- ☐ Modified DockerImage for Cloud Hosting.
- ☐ Shipment page
- ☐ Administrative page
